Dear P-Dawg,

Thank you so much for this wonderful experience! I am now living a much healthier lifestyle. I have enjoyed working with everyone at the workshop. I also met some new friends. I really liked the food. I hope my mom could cook like that. At first I was nervous with the showcase. After I did my monologue I was so relieved when it was over. I was also inspired to write my own monologue. I look forward to going to another workshop soon. Peace Out! 😊
